

## Condenser Recording Microphone 3.5mm Gaming

MODEL NUMBER: WZ-165298917653

### Highlights

- (Foldable and Adjustable Tripod) -Ultra-compact design for maximum portability 180 degrees rotatable; Ideal for Recording, Singing, Gaming. Great for Youtubers and PodCasting. This condenser mic kit greatly meets your basic use of communicating in an online game.It allows you to stream games streaming on Twitch or other video platforms,

## Features

(3.5mm Plug and Play) -Easy to use, you can connect your phone or computer directly to a 3.5 mm jack with the cable. No additional converters are needed, real plug and play. But if your headphone jack is not 3.5mm please add a converter into 3.5mm, then our microphone can be used on your device. (MINI Condenser Microphone) - Notice: not fit for iPhone 7 above, Mac needs to connect the USB External Stereo Sound Adapter, The mic is specially designed for radio studios, dubbing, podcasting, recording, gaming, MSN, Skype, and conference chatting. Compatibility is great, not only working on your PC, laptop or desktop system (fit for Mac, Windows 7,8,10, Vista, XP), NOTE: New phones may require 3.5mm audio adapter sold separately, (Mac need to connect the USB External Stereo Sound Adapter. For Apple Macbook, you may need a USB sound card adapter (Not included) to make the microphone function well. And you need to set it on the Macbook. For Notebook/ laptop/ tablet/ smartphone with only one 3.5mm headphone & microphone port, if you want to output voice Via headphones, a Headset Mic Y Splitter Cable Adapter is needed (Included). The pink one connects a microphone and the green one connect the headphones. If your device is a lightning port like iPhone 7, 8, x, xs, or newer models, you need to prepare additional lightning to 3.5mm adapter(Not included). And please see the instructions below: Plug the Lightning to 3.5mm Adapter Cord into the phone, then plug the 3.5mm Y type cord into the lightning to 3.5mm adapter, and finally insert the microphone plug into the 3.5mm Y type cord (red cord) and insert the headphone plug into the 3.5mm Y type cord (green cord)
